ABOUT

I am a passionate and detail-oriented, Front-End Developer with a Bachelor's degree in Computer Science, equipped with a strong foundation in modern web technologies and user-centric design. During my internship, I gained hands-on experience developing responsive, interactive user interfaces using HTML, CSS, JavaScript, and React.js.

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, C++
- **Web Technologies:** HTML, CSS, React.js, Tailwind CSS, Bootstrap
- **Tools:** Git, GitHub, Visual Studio Code

WORK EXPERIENCE

Div Diligent – Front-End-Developer Intern

08/2024 – 10/2024

- Maintained up-to-date knowledge of coding languages, leading to efficient problem-solving skills.
- Built responsive and interactive user interfaces using **React.js**, applying reusable components and state management with hooks.
- Developed modern web pages using **HTML5**, **CSS3**, and **JavaScript (ES6+)**, ensuring cross-browser compatibility and mobile responsiveness.

PROJECTS

☐ Google Gemini 2.0 Clone

- Built a Google Gemini 2.0 clone using **React.js** and the **Gemini API** to deliver real-time AI-powered responses.
- Designed an interactive user interface featuring a chat system, prompt handling, and dynamic API calls.
- Implemented robust error handling, loading states, and responsive design for a seamless user experience.

🔗 GitHub: <https://github.com/HamidKhan1313/Gemini-clone>

☐ Food Delivery App

- Developed a fully responsive Food Delivery App using **React.js**, including components like product cards, category filters, and a dynamic cart using React Hooks and state management.
- Designed modern, mobile-first interfaces using **Bootstrap** and **Tailwind CSS** for optimal cross-device experience.
- Integrated mock REST API/local data for real-time menu rendering and used Git & GitHub for version control.
